Railroad Meeting.

The Committee appointed at the late railroad meeting in this city, for the purpose of procuring the legislative authority to clear the ice from the harbor of Bangor, and to place vessels in a safe position during the winter season, and to provide for the construction of a railroad from this city to Waterville, and to petition the Legislature for the same, have perfected, have agreed upon the following draft and directed it to be printed and circulated among our citizens, and have agreed by the instructions, received at the public meeting of the citizens of Bangor to assemble at the City Hall on this evening, for the purpose of considering the railroad question, and to take measures to secure the passage by the Legislature.

The Committee have very patiently investigated the matter submitted to them, and have made several very important amendments to the bill, including objections to the original bill, and they now report the same to the public meeting of the citizens of Bangor.

This meeting is an important one, and it should be generally attended by those who are interested in the welfare and prosperity of the city. It may be considered as fully settled that if this road shall be granted and chartered by the Legislature and by the people, that the railroad interest West of us will take hold of the work and proceed at once to the construction of the road, and thus give to Bangor a decided advantage in railway connection with the railroads of the United States and the Canadas.

It is believed by some that the time gained for Bangor is from one to two hours by railroads and plank roads into the interior to increase her communication by water to steam vessels, and that is certainly an important consideration, but the main dependence of the town of which she shall be the focus.

In answer to this it is urged, that by undertaking a portion of this road, Bangor must rely entirely upon her own capital and credit, and applied to those parts of the road that will be from the inside and business part of the country, whereas in the effort to join the main road with other sections, most of the capital must be brought from abroad, or if for the benefit of others to help extend their roads in order to obtain communication with Bangor.

The opening of the road to Waterville is contended, will give Bangor an opportunity to compete successfully with Portland for a small of some seventy or seventy towns, that it will furnish employment for the workmen of this city, many of which are now without freight, and all the carriers, the general business of the city. And, it is said, that if the enterprise is not now carried forward, it will be with so much ease and readiness, no substantial railroad interest will be undertaken here for a long time, as it has the only way to get from interior communication without passing a freight from a rival city.

All these matters are worthy of consideration at the present time, but it is most important of all to do something to start some feasible enterprise, and push it through, and then will be better prepared to take hold of something else. Mere everlasting talk meeting of one project against another, and thus neutralizing all substantial progress, has a tendency to weaken and destroy the enterprise of every character.

☞ The three prominent candidates before the Whigs of the country, stand high, and worthy to be the standard bearers of the party. On the great domestic questions of the day, the tariff and internal improvements, they are all known to be Whigs and friends of these two greatest of all the domestic questions before the country. On the question regarding the foreign relations of the country—the intercourse with other nations in time of peace, and the duties of the country towards foreign countries in time of war, they are known to cling steadfastly to the true and old American plan, neither of them will endeavor to endanger the country, by entangling alliances with other nations, nor to intermeddle with their domestic affairs. All three men are patriots and statesmen, whichever of them may receive the nomination of the Whig National Convention, whether it be Mr. Fillmore or Gen. Scott or Mr. Webster, to name them in alphabetical order, will be certain to receive the earnest support of the Whigs throughout the country, in fraternal feeling, and is the hope of success.

☞ When the Government of the United States was first established and Mr. Jefferson and others feared the tyranny, that might arise from so free legislation as was committed to Congress, and the whole matter was an experiment, the people were on the alert to watch carefully for their liberties, and in every District they looked about carefully for their best man as a man of ability, integrity and honesty into whose hands they could commit the trust, and the whole country. But now, since the experiment has gone on so long and so successfully, no more seems to be in taking anything and everything and the more one dares to rush the greater patriot he claims to be considered. The government is thought by some to be so very strong and the Union so firmly bound together that nothing within the reach of man can inflict injury or disturbance. Hence there is less care in the selection of candidates, and in too many instances members are returned to Congress by arrangements of cliques without regard to fitness.

☞ The two resolutions on the Kennebec the limitation of the rights on the Penobscot and Kennebec Railroad Charter, and the Charter to build a Bridge at Gardiner, have called out reports of the Committee of a Committee, and they are now debating upon the subject. The public Register says it stands like casting them from a railroad to the Canadas and connecting the State, and prevent their having the benefit of the south and a bridge at Gardiner, and the Kennebec Railroad Company from building a bridge at Gardiner, and the Kennebec Railroad Company from building a bridge at Gardiner, and the Kennebec Railroad Company from building

Choice Fruit Trees!

Ornamental Trees, Fruit and Flowering Vines and Shrubs.

J. W. CHAPMAN

OFFERS for sale at his Nursery in the city of Bangor, a handsome variety and choice lot of Trees and Ornamental Trees, selected by an experienced person from the best nurseries in the country, and in reference to the climate and soil of Maine, among them will be found valuable varieties with many of the newest of the times.

A fine lot of Bubichers plants for Hedges, and much admired for ornamental use at Mount Hope.

He would particularly call attention to a very fine assortment of DWARF PEAR TREES, of Anger's Culture stock, imported from the North of France, and which are very justly in great demand in New England, as they come immediately into bearing and are admirably adapted to garden culture where there is little room to spare.

Dwarf Apple Trees of the usual varieties of fruit, and which occupy but little space, and are very pretty and interesting.

The collection embraces most of the varieties of the PEAR, APPLE, CHERRY, PLUM, and other Fruits that are worthy of cultivation. Also, Quinces, Gooseberries, Currants, Raspberries, Strawberries, the New Two Thousand-fold Dried Vine, Colossal Rhubarb, Victoria Early Rhubarb, both very fine, and far superior to the common sorts.

☞ Ornamental Trees, Vines, &c., not on Hand will be immediately ordered from reliable parties, and obtained by the earliest conveyance.

The people may be assured that every effort will be made that intends to furnish to the extent of the demand, the best stock of trees which can be had in the country. The arrangements for this purpose are believed to be complete.

California Steam-ship Co.

Through without Detention!

THIS Company offers a speedy, safe and comfortable route to all emigrating to California. Steamships of both the Atlantic and Pacific sides are newly and in every respect of the best class, and passengers are ticketed through to San Francisco without any detention on the Isthmus, whatever arrangements and arrangements such that a steamship, more or less, at Panama on the arrival at Chagres, is not required to wait a day. Passengers are in the manner relieved from the delay, fatigue to remain on the Isthmus two or three weeks before going through an experience of long, tedious and uncomfortable passage, so much to be dreaded, and which is now quite suppressed. The fare is as low as by any other route. For further information, freight, passage, apply to

Bounty on Wolves.

If you'd your Whitewash not surely fail,
And Fingers too, why Hartt's the Oil,
The victim rough, keen Hunters each.

AFTER twenty-five years of trial, I have no hesitation in saying that Wolves is the best Oil for Whitewashing that I have ever used. I have never succeeded in getting a varnish that is free and simple—that requires no disadvantageous efforts, giving a certain, quick time to dry from the fatal spot which it was applied by the Hand of the Artist or Mechanic. The reason why I like it is that I have never been able to find it for sale only by

Great American Remedy.

SON'S COLDS, COUGHS, ASTHMA, CROUP AND CONSUMPTION.

WE have only to announce to the public that we have the very best remedy for the cure of the above complaints ever offered to the afflicted, and we challenge a trial of it with any other medicine for the same purpose. Having been for many years engaged in the manufacture of Medicines, and having had a thorough knowledge of the scientific principles which govern the action of medicines, or of the power of each ingredient of which they are composed, we have been enabled to combine the most valuable properties of the above medicine in such a manner as to render it the most powerful, safe and speedy remedy for the cure of the above complaints ever offered to the public. It is infallible, and I challenge a trial of it with any Indian, Eastern, English, French, German, or any other Doctor or Nostrum preparation, known or unknown to the public for sale; while the cures or what it has accomplished, it was done by Brant, Mayo & Co. of Boston, for many years, much greater than can be done by any other medicine now before the public, and can be had at no more than twenty cents per bottle, and look further? A Certificate.

BANGOR, June 6, 1850.

THIS certifies that I have been accompanied with a Cough and suffered severely. I have taken many medicines with but little relief. I saw a notice of Rice Water, with its many beneficial facts, was induced to try a bottle of HANNAH'S WATER, which entirely cured them in a short time, and to my entire satisfaction. I purchased another bottle, and carried it into the woods with a crew of lumbermen. I notice five of the men in the winter were troubled with sore Eyes. All were cured in a few days. I have given it to my family in cases of Colds, Coughs, Sore Throat, &c. and find it to be the best medicine I ever used. I will recommend Mr. Watson Hannah and the medicine to the community. This certificate is entirely voluntary, and I give it for the use of the afflicted.

Modern Resume of Life.

THE Great Remedy for Coughs, Colds, Whooping Cough, and Pulmonary Complaints. The Whooping Cough can be cured in a week if taken at the Commencement of the disease. Thousands die annually who might be saved if they checked their Colds in the beginning. This can be done by the use of MOORE'S ESSENCE OF LIFE. This is no humbug—witness the good that it has accomplished the past year. Call at your own residence, and ask your neighbor what Moore's Essence of Life has done for his family. It has cured more cases of Incipient Consumption, Whooping Cough and Bronchitis than all other remedies in use. Ask your neighbor if he has not a child, or friend who has been cured of Whooping Cough by this remedy. Ask him what he thinks of it. Ask your Druggist what he thinks of it. Ask your Physician what he thinks of it. Ask your Minister what he thinks of it. Ask your Editor what he thinks of it. Ask your Postmaster what he thinks of it. Ask your Merchant what he thinks of it. Ask your Lawyer what he thinks of it. Ask your Doctor
